(Revised July 2018)

**ARTICLE I.
PURPOSE**

The Audit Committee of Magellan Health, Inc. (the “Company”) is a committee of the Company’s Board of Directors. The primary function of the Audit Committee is to assist the Board of Directors in: (a) fulfilling its financial oversight responsibilities by reviewing the Company’s financial statements, the other financial information that is proposed to be provided to the shareholders, the periodic financial reports filed with the Securities and Exchange Commission, the systems of internal controls which management and the Board of Directors have established, and the audit process; and (b) overseeing the Company’s process for compliance with legal and regulatory requirements, including the Company’s Compliance Program and Code of Conduct. In doing so, it is the responsibility and duty of the Audit Committee to provide an open avenue of communication among the Board of Directors, the Company’s management, legal & compliance staff, internal auditor staff, and the independent auditors.

The Committee’s role is one of oversight. The Company’s management is responsible for preparing the Company’s financial statements and the independent auditors are responsible for auditing those financial statements.
